FOR  
ETHNOPHARMACOLOGY**

**Membership Application /  
Renewal**

The "International Society for Ethnopharmacology" (ISE) is an international scientific organization of researchers dedicated to the interdisciplinary study of the pharmacological actions of plants, animals, insects, and other organisms used in medicines of indigenous and modern, and past and present, cultures. The ISE is also committed to the preservation and conservation of such practices for future generations. The objective of the ISE is to promote ethnopharmacology as a scientific field of research.

The official journal of the ISE is the **Journal of Ethnopharmacology**

The Journal of Ethnopharmacology is dedicated to the exchange of information and understandings about people's use of plants, fungi, animals, microorganisms and minerals and their biological and pharmacological effects based on the principles established through international conventions.

## Benefits of a Membership:

- **Reduced fees at congresses and symposia of the ISE**
- **Highly reduced subscription rate for the Journal of Ethnopharmacology for personal use (current institutional rate: > €2100)**
- **Information on activities inside and outside the ISE through our Newsletter**
- **Travel grant for students and young scientists to attend the scientific biannual congress of ISE**
- **Free copy of the abstract book of the biannual congress for members who did not attend**
- **Access to a wide network of scholars interested in the traditional and local use of medicinal, food and toxic plants**
